Pam -

Attached is the technical memorandum outlining the PCB remediation and sampling efforts and the proposed follow-on actions for the Cutler South Helix House Transfer Room. Please feel free to contact us with any feedback at your earliest convenience.

R,
Lisa

Hi, Pam

The Navy anticipates being able to provide the data and recommended actions near or around the SEP 30th timeframe.

Thanks,
Bobbette

Bobbette or Matt,

Do you have a time frame for evaluating these results as Lisa mentions below?

Thank you,
Pam Davis Green
207-287-7880

Pam -

Preliminary results have been received for the recent Cutler South Helix House Transfer Room PCB sampling and remediation effort. As some concentrations of PCB contamination remain, the Navy is currently

evaluating the data and considering any additional actions that may be needed. Once that evaluation is completed, the Navy will provide you with this data and recommended actions.

Since I will be out of the office for at least two weeks after tomorrow, please feel free to contact Bobbette and Matt if you have any questions during my absence.

R,
Lisa
